Director's report

Result for the period

In the first quarter of 2013, the Arkil Group achieved revenue of DKK 379.1 million compared to DKK 396.3 million for the same period last year, a decrease of 4.3%. This decrease is attributable to the activities in the Outside Denmark segment.

Primary operating profit (EBIT) for the first quarter of 2013 showed a loss of DKK 51.2 million compared to a loss of DKK 64.2 million for the same period last year.

Net financial items showed an expenditure of DKK 1.1 million compared to DKK 1.6 million for the same period last year.

Pre-tax profit/loss for the period showed a loss of DKK 52.3 million compared to a loss of DKK 65.8 million for the same period last year.

However, as mentioned in statements for previous years, the interim results for a company in such a seasonal line of business cannot be used directly as an indicator for its profit for the year.

Consolidated net revenue and result before tax for each quarter:

Cash flow from operations in the first quarter of 2013 amounts to a total of DKK 83.4 million as against DKK 14.6 million for the same period last year. The most significant item changes from the cash flow from operations stem from adjustments in capital tied up in working capital.

Cash flow from investment activities, acquisition of companies and activities was DKK -12.3 million as against DKK -17.0 million for the same period last year. Investments in machinery and equipment for the period are DKK -15.3 million as against DKK -17.0 million last year.

Cash flow from financing activities was DKK -40.1 million compared to DKK 2.8 million last year.

Liquid holdings at the end of the period increased by DKK 36.1 million to DKK 178.4 million.

During the period the Group's interest-bearing liabilities reduced by DKK 30.2 million to DKK 189.1 million.

Denmark segment

For the first quarter of 2013, the Group's Danish companies experienced a level of activity slightly higher than last year.

The current market situation as well as the order book status at the beginning of the year contributed to a relatively high level of activity for the first quarter of the year. As in previous years, Danish activities in the first quarter of the year are affected by limitations to production caused by the weather.

The level of offering of large projects helps to support activities on the Danish construction market.

The volume of orders for the rest of the year is satisfactory, although marked by fierce competition for projects.

In the first quarter of 2013, revenue for the Denmark segment was DKK 319.5 million compared to DKK 303.6 million for the same period last year. The result (EBIT) was DKK -20.9 million compared to DKK -39.0 million for the same period last year.

Abroad segment

The Group's companies outside Denmark experienced a level of activity somewhat lower than last year.

Activities in Germany were fewer than for 2012 due to limitations in production caused by the weather. In view of the current market and order situation, activities at the same level as in 2012 are expected.

As expected, activities in the Irish market are at a slightly lower level than in 2012. The Irish market is still affected by a weak price development, due to a low level of activity and over-capacity.

As expected, activities in Sweden were at the same level as in 2012.

In the first quarter of 2013, revenue for the Outside Denmark segment was DKK 59.7 million compared to DKK 92.7 million for the same period last year. The result (EBIT) was DKK -30.3 million compared to DKK -25.2 million for the same period last year.

The volume of orders in total can be considered to be as expected.

Reconciliation of the pre-tax period result

	1 Jan to 31 March 2013	1 Jan to 31 March 2012
Primary operating profit		
Denmark segment	-20.9	-39.0
Abroad segment	-30.3	-25.2
Primary operating profit	-51.2	-64.2
Net financial items	-1.1	-1.6
Profit/loss before tax	-52.3	-65.8

Expectations for the financial year 2013

The Group's pre-tax result for 2013 is expected to show a profit between DKK 35 and 60 million, as anticipated in the announcement of the annual accounts from 20 March 2013.

Revenue is expected to be realised around DKK 2,800 million for the entire year.

Comments on future conditions

The predictions about the future in this interim report reflect the Board's current expectations of future events and financial results. Predictions for the rest of 2013 will, by nature, be associated with uncertainty, and the actual results may therefore deviate from expectations.

Factors that could lead to significant deviations from the expected results include – but are not limited to – economic trends and the development in the financial markets, technological developments, changes to legislation and regulations in the markets where Arkil operates, competition conditions, job tenders within the Group's areas of business, weather and climate conditions in the markets where the Group operates, and the acquisition and sale of activities and companies.

Endorsement by the board

The Board of Directors and Executive Board have today considered and approved the interim report for the period 1 January to 31 March 2013 for Arkil Holding A/S.

This interim report, which has not been revised or reviewed by the company's accountant, has been prepared in accordance with IAS 34, Presentation of interim reports, as approved by the EU and Danish financial reporting requirements for public listed companies.

In our opinion, this interim report provides a true and fair view of the Group's assets, liabilities, and financial position as of 31 March 2013 and of the results of the Group's activities and cash flow during the period 1 January – 31 March 2013.

In our opinion, the management's review provides a true and fair presentation of the development of the Group's activities and financial situation, the results for the period and of the Group's financial position as a whole as well as a description of the essential risks and factors of uncertainty which the Group is facing.

Note 1. Accounting policies applied

This interim report has been prepared in accordance with IAS 34, Presentation of interim reports, as approved by the EU and Danish financial reporting requirements for interim reports for public listed companies.

Apart from the impact of new IAS/IFRS implemented in the period, there has been no change in the accounting policies applied compared to the Consolidated Accounts and the Annual Accounts for 2012. Please refer to this for more information.

The Consolidated Accounts and Annual Accounts for 2012 include a complete description of the accounting policies applied.

New IAS/IFRS implemented in the period

Commencing on 1 January 2013, Arkil Holding implemented Amendments to IAS 1, Amendments IFRS 7, IFRS 13, IAS 19 (amended 2011) and Annual improvements to IFRSs 2009-2011.

The changes to IAS 19 enter into force for financial years commencing 1 July 2012 or later. Previously, expected return from pension assets were included in the result, but in future, earned interest from pension assets shall be calculated using the same interest rate used on discounting the pension obligation. The change only has a slight impact on the Group.

IFRS 13 changes the principles for calculating fair value for both financial and non-financial assets and liabilities and introduces a number of new reporting requirements. Arkil Holding A/S already follows the principles for calculation of fair value from IFRS 13, which means that the standard will only have an impact on the reporting requirements.

Apart from IAS 19, none of the new accounting standards and interpretations has affected inclusions and measurements.

The new accounting standards and interpretations have not affected inclusions and measurements.

Assumptions and estimates

For the preparation of interim reports, management must make assumptions and estimates, which affect the applied accounting policies and the calculated assets, liabilities, income and expenditure. The actual results may deviate from these estimates.

The essential estimates made by the management when applying the accounting policies for the Group and the essential uncertainty of these estimates are the same for the preparation of this consolidated interim report as for the preparation of the consolidated accounts and the annual accounts as at 31 December 2012.

Note 2. Goodwill

Impairment test

The annual impairment test for goodwill is carried out as at 30 September, after the completion of budgets and strategic plans for the next 5 years' period. As at 31 March 2013, Management assesses that there is no indication of a reduction in the value of the accounting values for goodwill and intangible assets with non-limited service life.

Note 3. Fair value measurement for financial instruments

Below are listed the reporting requirements relevant to the Arkil Holding A/S Group related to the Group's interest rate swaps and investment portfolio.

The interest rate swap is classified as level 2 in the fair value hierarchy with recurring fair value measurements.

	31 March 2013	
Amounts in DKK million	Fair value	Book value
Financial assets		
Derivative financial instruments classified as hedging instruments – level 2	0.1	0.1
Securities (fair value option) – level 1	25.9	25.9
	25.9	25.9

It is the policy of the Group to include transfers between the different categories from the time when an event or change in conditions implies a change in the classification. There were no transfers between individual levels in the first quarter of 2013.
